Barn Buddies Program

In order to reduce the number of cats constantly housed at the shelter, the Prince Albert SPCA is pleased to offer the “Barn Buddies” Program. Barn cats will help keep down the rodent and vermin population on your property and you will help them by giving them a safe place to live.

While we understand that there are risks to living in this environment, this project offers cats that are less likely to be adopted out due to age, length of stay at the shelter, are semi-feral, etc a second chance at life. The Prince Albert SPCA does not adopt kittens, pregnant cats, long haired, or senior cats to this program. Only cats who are over 6 months, who have been health checked, vaccinated, spayed/neutered, and microchipped will be eligible for the program.

The cost to adopt a Barn Buddy is a minimum \$20 monetary donation per cat. The cost to sterilize, vaccinate, microchip and feed one cat is significantly greater than that amount and as such, a larger donation is greatly appreciated.

Barn Buddies are adoptable to individuals who can provide the following:

- Shelter in heated/insulated barns, shops, buildings or stables
- Daily food and water – they cannot survive on what they catch alone
- Long-term vet care, if needed and as required
- The ability to close the shelter they will be living in for the first 48 hours while they acclimate to their surroundings.
